

Clay Research Conference and Workshops 2022

26-30 September 2022

Mathematical Institute
University of Oxford, UK

Clay Research Conference

28 September

Plenary Speakers

Bhargav Bhatt, University of Michigan

Kevin Costello, Perimeter Institute

Igor Rodnianski, Princeton University

Jacob Tsimerman, University of Toronto

Conference Workshops

26-30 September

p-adic Hodge Theory and Applications

Organisers: Bhargav Bhatt (Michigan) and Akhil Mathew (Chicago)

O-minimality and Diophantine Geometry

Organisers: Gareth Jones (Manchester) and Alex Wilkie (Manchester and Oxford)

Stability and Instability in General Relativity

Organisers: Mihalis Dafermos (Cambridge), Elena Giorgi (Columbia), Igor Rodnianski (Princeton)

29-30 September

Physics from the Point of View of Geometry

Organisers: Mike Hopkins (Harvard) and Ulrike Tillmann (INI and Oxford)

For full details, including the schedule, titles and abstracts when they become available, see www.claymath.org

Clay Mathematics Institute

Registration for the Clay Research Conference is free but required. Participation in the workshops is by invitation; a limited number of additional places is available. To register for the Conference and to register interest in a workshop, email Naomi Kraker at admin@claymath.org
