

[40r] My dear Lady Lovelace

There is a misprint  
in page 83, I find, line 6 from  
the bottom. For  $x + w$  read  
 $x + 1$ . Your result is correct  
for an increment [*sic*] [something crossed out]  $w$ .

My last letter was  
all ready when yours arrived  
and I had no time to make  
any addition. My wife  
begs me to give her kind  
regards and to say that she  
knows her mother will  
wish her to be with her  
[40v] on Sunday Evening (the day  
after Mr. Frennd's funeral) so  
that she will be glad if you  
can come any other evening  
in the week

With kind remembrances  
to Lord Lovelace

I remain

Yours very truly

A DeMorgan
